<b>Office Action Summary</b>	<b>Application No.</b> 09/759,427	<b>Applicant(s)</b> TERAOKA, FUMIO	
	<b>Examiner</b> John Pezzlo	<b>Art Unit</b> 2662	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
  - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
  - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
  - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☐ Responsive to communication(s) filed on \_\_\_\_.
- 2a) ☐ This action is **FINAL**.      2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

#### Disposition of Claims

- 4) ☒ Claim(s) 1-14 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_ is/are allowed.
- 6) ☒ Claim(s) 1-14 is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_ is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_ are subject to restriction and/or election requirement.

#### Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
 Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
 Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

#### Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All    b) ☐ Some \*    c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
  2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_.
  3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

I. Claims 1-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Ahmed et al.  
(US 6,160,804) hereinafter Ahmed.

Note – Ahmed discloses methods and devices which utilize software (program instructions),  
refer to Figure 2 and column 6 lines 15 to 42

1. Regarding claims 1-3 (network node/intermediary node) - Ahmed discloses storage means for storing a first data for designating a first terminal device (mobile station) corresponding to the host name or node identifier of the first terminal device, as well as for storing a third data showing the position of one or more provision devices (foreign agent) for providing a second data showing the current position of the first terminal device (mobile station)

Art Unit: 2662

located at the foreign agent), refer to Figures 1-4 and column 4 lines 48 to 67 and column 5 lines 1 to 22.

Ahmed discloses receive means to receive a transmit request for the third data and the first data corresponding to the first terminal device, transmitted along with the host name or node identifier of the first terminal device from the second terminal device (calling party), refer to Figures 1-4 and column 10 lines 13 to 60.

Ahmed discloses selection means to select a first data corresponding to the first terminal device stored in the storage means and to select a third data showing the position of one more provision devices when the transmit request is received from the receive means, refer to Figures 1-4 and column 11 lines 42 to 67 and column 12 lines 1 to 35.

Ahmed discloses a transmit means to transmit the first data and third data selected by the selection means, to the second terminal device (calling party), refer to Figures 5A and 5B and column 15 lines 25 to 65 and column 16 lines 1 to 20.

2. Regarding claims 4-6 (calling device – mobile station) – Ahmed discloses first transmit means for transmitting a transmit request for a second data showing the position of one or more first provision devices, as well as a first data designating a terminal device, to a second provision device along with the name or node identifier of the terminal device, refer to Figures 5A and 5B and column 15 lines 25 to 65 and column 16 lines 1 to 20.

Ahmed discloses first receive means for receiving a second data showing the position of one or more first provision devices as well as a first data for designating the terminal device from the second terminal device, refer to Figures 1-4 and column 10 lines 13 to 60.

Art Unit: 2662

Ahmed discloses second transmit means for transmitting a request for transmission of a third data designating the position of the terminal device, along with a first data designating the terminal device, to any of the one or more first provision devices, Figures 1-4 and column 11 lines 42 to 67 and column 12 lines 1 to 35.

Ahmed discloses second receive means for receiving the third data designating the position of the terminal device from any of the one or more first provision devices, refer to Figures 1-4 and column 10 lines 13 to 60.

3. Regarding claims 7 - 10 - Ahmed discloses a handoff process, wherein both the mobile device and the network device move and report their position (which network device they are coupled too) as part of the handoff process, which discloses an information processing device (mobile device) which moves the connection position on the network, comprising first transmit means for transmitting to a first communication party (network device, current network device), a first data for designating the current position of the information processing device itself, along with a second data for designating the position prior to movement and further comprising second transmit means for transmitting to a second communication party (second network device, handover device), a third data (new network device for communicating over the network) for designating its own movement of said information processing device, refer to Figures 3B and 8A and 8B and column 11 lines 20 to 40 and column 19 line 1 to column 21 line 45.

Art Unit: 2662

4. Regarding claim 12 – Ahmed discloses wherein said first receive means receives said first data and said second data based on connectionless-mode protocol, refer to Figure 1 and column 7 lines 20 to 35.

5. Regarding claims 11, 13, and 14 – Ahmed discloses a soft handoff process wherein a mobile device communicates with a new network device and the current network device prior to being handed-off to new network device, first receive means (mobile device) for receiving a first data designating a terminal device (mobile device) and a second data showing movement from said terminal device, refer to Figures 3B and 8A and 8B and column 11 lines 20 to 40 and column 19 line 1 to column 21 line 45.

Ahmed discloses first transmit means (mobile device) for transmitting a request for transmission of a third data showing the position of one or more first provision devices (new network device) along with the name or node identifier of said terminal device (mobile device) to a second provision device (current network device), refer to Figures 3B and 8A and 8B and column 11 lines 20 to 40 and column 19 line 1 to column 21 line 45.

Ahmed discloses second receive means (mobile device) for receiving said third data showing the position of said one or more first provision devices (new network device) from said second provision device (current network device), refer to Figures 3B and 8A and 8B and column 11 lines 20 to 40 and column 19 line 1 to column 21 line 45.

Ahmed discloses second transmit means (mobile device) for transmitting a request for transmission of a fourth data designating the position of said terminal device (mobile device), along with said first data designating said terminal device, to any of said one or more first

Art Unit: 2662

provision devices (new network device), refer to Figures 3B and 8A and 8B and column 11 lines 20 to 40 and column 19 line 1 to column 21 line 45.

Ahmed discloses third receive means (mobile device) for receiving said fourth data designating the position of said terminal device from any of said one or more first provision devices (new network device), refer to Figures 3B and 8A and 8B and column 11 lines 20 to 40 and column 19 line 1 to column 21 line 45.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

1. Roy (US 6,732,177 B1) discloses an intelligent signaling scheme for computer-readable medium for H.323 mobility architecture.
2. Chuah et al. (US 6,400,722 B1) discloses an optimum routing system.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Pezzlo whose telephone number is (703) 306-5420. The examiner can normally be reached on Monday to Friday from 8:30 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hassan Kizou, can be reached on (703) 305-4744. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Art Unit: 2662

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-4700.

Any response to this action should be mailed to:

Commissioner of Patents and Trademarks

Washington, D.C.

or faxed to:

(703) 872-9306

For informal or draft communications, please label "PROPOSED" or "DRAFT"

Hand delivered responses should be brought to:

Receptionist (Sixth floor)

Crystal Park 2

2121 Crystal Drive

Arlington, VA.
